

"E" INC. – THE ENVIRONMENT SCIENCE LEARNING & ACTION CENTER AMERICORPS MASSACHUSETTS PROMISE FELLOW

AmeriCorps Massachusetts Promise Fellows deliver the resources young people need to be successful in life by creating, managing, and leading meaningful out-of-school time programs for youth in grades 6-12. Fellow projects focus on mentoring, social and emotional learning, college and career readiness, academic enrichment, and community service-learning.

The Massachusetts Promise Fellowship achieves this by placing AmeriCorps Fellows with schools, non-profit organizations and state/local government agencies that focus on fulfilling the needs of our youth by providing: *a caring adult, a safe place, a healthy start, a marketable skill, and an opportunity to give back.*

SERVICE DESCRIPTION

BOSTON-The Fellow's main project will be to lead and grow "e" inc.'s *Change Makers* Teen Program. Using an environment science lens, this teen group will create and implement a series of community-based projects and along the way, gain science knowledge and develop leadership skills. This year, our goal for the Teen Program is to emphasize social activism within the community – petition for city composting, campaign against plastic bags, etc. The Fellow is responsible for developing curriculum, leading hands-on science lessons, facilitating project development, organizing field trips and mentoring teens. The Fellow's secondary project will be to support the operation of a Climate Change Exhibit at "e" inc.'s Charlestown Navy Yard location. This will include scheduling visitors and being the lead museum educator on Saturdays. Finally, the Fellow will have the opportunity to experience the inner-workings of a small, grassroots non-profit.
